

FOR IMMEDIATE RELEASE

AnywhereCommerce Partners with Blokkio to Deliver Seamless Crypto-to-Cash Payments

July 27, 2025 – Montreal, QC and Miami, FL – AnywhereCommerce, a global leader in mobile and omnichannel point-of-sale (POS) payment solutions, today announced a strategic partnership with Blokkio, a pioneering fintech innovator in digital currency acceptance. The partnership enables AnywhereCommerce merchants to accept cryptocurrency payments and receive instant cash settlements in local currency—with no disruption to existing systems.

Through Blokkio's advanced crypto payment technology, AnywhereCommerce's partners and merchant base can now tap into the fast-growing world of digital asset payments, offering consumers more ways to pay and businesses more flexibility in how they get paid.

"As payment methods evolve, we're committed to ensuring our Partners stay ahead of the curve," said Michael Kron, CEO of AnywhereCommerce. "This partnership with Blokkio empowers merchants to easily accept cryptocurrency without ever having to hold or manage crypto. It's seamless, secure, and built to scale with merchants of any size."

Seamless, Secure, Scalable Crypto Payments for Merchants

Partners can now offer a stand alone crypto application, or imbed the solution directly via AnyPay™ into their existing POS software solution and e-commerce sites

Key features include:

- Instant crypto-to-cash conversion at the moment of sale to mitigate crypto volatility
- No holding crypto - merchants never touch crypto and transactions are settled rapidly in local currency
- Multi-layer security, including end-to-end encryption and authentication
- Global reach with compatibility across 600M+ regulated digital wallets
- Ideal for both in-store and E-Commerce point-of-sale environments
- Seamless integration via Hassle Free SDK or API
- Robust Portal for Real Time Reporting

This partnership opens new doors for merchants serving international customers, digital-native shoppers, and high-value buyers seeking alternative, faster ways to pay.

"Blokkio is proud to work with a visionary company like AnywhereCommerce," said Gustavo Jiminez, CEO of Blokkio. "Our shared goal is to simplify and democratize access to crypto payments. By combining our technology with their reach and trusted POS infrastructure, we're delivering the future of cryptocurrency transactions today."

Real Impact for Real-World Businesses

As demand for crypto remittance, digital asset payments, and cross-border transactions continues to surge, this partnership arrives at a pivotal moment. AnywhereCommerce merchants—from luxury retailers to food and beverage operators—can accept cryptocurrency with the same ease and security as traditional card payments.

Availability

The crypto payment feature is available now for AnywhereCommerce clients. To learn how to activate crypto-to-cash payments on your POS system, contact sales@anywherecommerce.com or visit www.anywherecommerce.com.
